PLANT TREES | SAVE LIVES

GPM FUEL TABS is dedicated to informing people about the positive effects of reforestation. Furthermore, GPM FUEL TABS is inspiring people to use them in all types of internal combustion vehicles and machines in order to significantly reduce our carbon footprint. GPM FUEL TABS has entered into a partnership with EDEN Reforestation (a philanthropic organization) to speed up the planting of trees where they are most needed. Our promise is to plant a tree for every order of 4 sachets of GPM FUEL TABS through EDEN Reforestation. The solution is in our hands.

HOW TO USE

1 GPM FUEL TABS Tablet treats 12 gallons (44 liters) of gasoline, diesel or any ethanol blend. For best results, add tablet to tank before refueling. Double the suggested dose the first time.

EASY GUIDE (FULL TANKS)

ENGINE	4 CYLINDERS	6 CYLINDERS	8 CYLINDERS
1 GAS TANK	2 TABLETS	3 TABLETS	4 TABLETS
2 GAS TANK	1 TABLETS	1 1/2 TABLETS	2 TABLETS

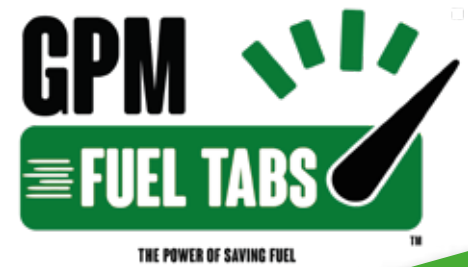

GPM FUEL TABS

They are manufactured exclusively for GLOBAL POWER MATRIX IN MOTION IN.
Made in the USA

IN FUEL”**

DRIVE THE EXTRA MILE

- Improves combustion efficiency
- Improves machine performance
- Reduces harmful emissions
- Removes carbon deposits
- Extends the life of the oil.

GPM FUEL TABS are a fuel catalyst for machines that use gasoline or diesel. Acts as a burn modifier during the engine's burst cycle. Due to an electrochemical attraction, the combustion process is accelerated, causing the hydrocarbon chains to burn completely. As a result, GPM FUEL TABS increases power, reduces polluting emissions and improves fuel economy, since you can use regular gasoline instead of premium in cars that require the use of premium gasoline. Helps remove carbon deposits and helps keep oil and machine clean. GPM FUEL TABS work on any vehicle with an internal combustion engine: cars, trucks, motorcycles, tractors, construction equipment, ships, power generation plants, etc. When you use GPM FUEL TABS continuously you will help reduce your carbon footprint.

Pollution is a major problem across the planet. GPM FUEL TABS dramatically reduce your carbon footprint by reducing toxic gases such as: Carbon monoxide, nitrogen oxide and volatile hydrocarbons. An overall reduction in harmful emissions, including CO₂

FREQUENTLY ASKED QUESTIONS

How do I use GPM FUEL TABS?

Simply insert the recommended dose into your tank before fueling up.

How often should I use the GPM FUEL TABS?

Every time you refuel.

How much fuel can I save?

Since there are many factors that influence fuel efficiency, an exact amount cannot be specified, which can be 20% or more.

Are GPM FUEL TABS cheap?

In most countries and regions, the savings exceed the cost of GPM FUEL TABS. For example: at public price, assuming a 15% increase in yield, the savings would be: 140% at \$2 USD per gallon, or \$11 MXN per liter, 210% at \$3 USD per gallon, or \$16 MXN per liter and 280 % at \$4 USD per gallon or \$21 MXN per liter

Can I use the GPM FUEL TABS with ethanol or diesel?

Yes, GPM FUEL TABS can be used on all grades of diesel, ethanol blends, 2-stroke blends, and gasoline.
