Our first Fast Start Bonus is a bonus designed not only for you who are starting to build your network; if not also in your sponsor. Or if you are that sponsor that helps your group grow, you will benefit from this bonus.

Let's take as an example: you sponsor Luis and Luis enters with an Executive package. You earn 80 dlls and if Luis invites Pedro and Pedro also enters with an Executive package Luis will earn 80 dlls, but since Pedro is your second level you will earn 40 quick start dlls and so on.

If you sponsor someone you can earn from 40 to 80 dlls depending on the package they sign up with, and if they are referred by someone from your direct line you can earn from 20 to 80 depending on the package purchased.

The Residual bonus is an excellent Bonus that will pay you for all the work you already done, it's as if you earn royalties for all the people who enter your organization.

Starting from the first level and depending on your rank, it will pay you up to 12 levels if you are Global Plan, in this Bonus you will earn 10% of the value in points of repurchase (4 dollars up to 8th level and 2 dollars from 8th to 12th) for each person that you have your repurchase activated month by month, with this apart from the bonuses that you receive when someone signs up for your organization, such as the Membership Bonus Quick and Residual Start, With this Bonus you will win for all the people who have their repurchase active, which is why it is important that from the beginning Help your organization to have its buyback active since the more people have it active, the greater your income will be.

Example: You have within your organization starting from the 2nd. Level up to 8th. to 1000 people, who have activated their buyback. That would give you a bonus of \$4000 dlls just because within your organization you and your group have your active buyback.

As you can see, this is a “Super Powerful” bonus.
